Dear Commissioners,

In the recent words from Arizona Public Service Co. (APS) they wrote: "enough is enough." How appropriate – I couldn't agree more. You have been more than sufficiently informed by many, over a long period of time (years), regarding the absolute unworkable illegality, dangers, and financial infeasibility of so-called "smart" meters (aka AMI). Your very own Dockets are chock full of solid information expounding on all angles of this debacle. Yet you stonewall and feign pursuing due diligence, as is your mandated regulatory responsibility by law. Surpassing the unacceptable and obvious dereliction of duty, into the depths of fraudulent and corrupt behavior, at great peril to the People, as well as to yourselves. A *modus operandi* of breaking Statute, after Statute, after Statute... as if this be "business as usual."

So unfortunate for all. The more one looks into this, the worse it gets - - a deep seeded systemic interplay of collusive, underhanded dealings, influence peddling, and misleading PR, a well orchestrated network of protectionism for excessive profitability (extortion) at the expense of the lied to and trusting People. Over time, and a lot of diligent effort, that is now clear for anyone willing to look. It's high time the Offices of the Governor, the Attorney General, and the FBI, to roll up their sleeves and get down & dirty investigating this horrendous, debasing, fiasco... fully, thoroughly, and completely.

A most heinous and serious predicament, caused by the misguiding of your own hands. You have been more than well informed, so there can be no excuses whatsoever. Your fate has been well sealed by your own hard work at breaking laws, being dishonest, and ignoring the facts. There is NO pleasure in bearing light upon this darkness. When the People fully and clearly see the truth of your systematic behaviors; they will need not ask for your heads on a silver platter. It will be quite clear that you have done a most excellent job at losing your heads (by your own actions/omissions) already.

Respectfully,

Stan Kingman
